

POMMIES HAVE LEFT THE BUILDING

Pommies Ltd, our French subsidiary, has recently relocated to new offices within the Lille area.

The new address is: 1 Rue Denis Papin, 59650 Villeneuve D'ascq France

The new facility will allow the office and the laboratory to be located together. There is room for more staff expansion, in addition to a new Quality Manager, Noemie Jordain, who has only recently joined with the business.

The Pommies management have ambitious plans to expand volume, particularly in the process sector where they currently deal with many companies though out Europe and beyond.

They have successfully exported earlies from South West France to Italy and the UK and will use this as a springboard for further growth.
