

RAMOS

Ramos is a high yielding, early maincrop chipping variety suitable for long term storage. It has good resistance to dry rot and silver scurf.

It is partially resistant to G Pallida and fully resistant to G Rostochiensis.

A typical farmers' variety, very suitable for the chip market both french fries and chip shops.

A great tasting potato

Description	
Origin	Agria x VK69491
Maturity	Early Maincrop
Tubers	Oval, long tubers, shallow eyes, smooth yellow skin
Consumer Quality	High dry matter variety suitable for chip production
Agronomic Features	Suitable for growing on all soil types. Emerges and grows quickly with rapid skin set

Diseases, Pests and Damage			
Common Scab	5	Internal Damage	4
Skin Spot	4	External Damage	5
Silver Scurf	7	G Rostoch	9
Blackleg	4	G Pallida (1,2,3)	4
