

PUTTING A SMILE ON THE GARDENER'S FACE

The Beechgrove Garden is a popular BBC gardening programme in Scotland.

Episode 4, aired on the 23rd April, contained a feature on planting seed potatoes where the star attraction was our very own Smile potato.

The episode is available on BBC iPlayer. We look forward to harvest time when our unique variety will be displayed in all its glory.

Smile seed can be purchased on the internet via our website:
