

## Potato Grow in the Press

Potato Grow has featured recently in various publications, here we see an extract taken from POTATO Review's January/February 2016 edition:

HIGGINS Agriculture, the family-owned potato supplier based in Finningley, Doncaster, has launched a service which allows retail customers to pick their favourite variety, order seed and get it delivered to home or workplace. Varieties on offer as part of a 'Potato Grow' package include Maris Piper, King Edward and Charlotte, as well as speciality lines such as Pink Fir Apple and Smile.

'We are really excited to be launching this new service and taking our seed potatoes directly to the consumer,' managing director

David Higgins commented. 'We grow traditional and new varieties which we provide to customers in over 25 countries around the world. With this knowledge and experience, we feel we are in the best position to help people understand, grow and taste their own finest potatoes.'

'We are really confident that if people try our seed using easy-to-use guides and advice, they will get real satisfaction of growing home-produced potatoes and they will be able to taste the difference,' he added.
