REVIE

PURELY POTATOES

Family business – family values

Revie

Revie is an attractive particolour table variety, producing bold tubers with a bright skin finish.

It exhibits strong resistance to PCN (G. Rostoch), spraing, potato virus A, mechanical damage and silver scurf. This variety also has some resistance to late blight, blackleg, scab and dry rot.

It has produced excellent yields when grown in the Canaries and in other hot climates.

Description	
Origin	Amour x Romano
Maturity	Second early
Tubers	Large oval tubers, white skin with red splashes, cream flesh
Consumer Quality	High yielding variety with attractive skin appearance, suitable for table use
Agronomic Features	Achieves rapid ground cover, tolerates hot climates

Diseases, Pests and Damage
